BUSINESS MEN ORGANIZE

A very largely attended meeting of the business men of Blairmore was held yesterday afternoon, the main subject of discussion being the recent imposition of the business tax. The question was discussed in all angles, and it was decided, following the statement by several present that they had heard Mayor Knight state "that he was not in sympathy with the tax, but that it was adopted as a means to force the big boss (coal company manager) to collect from his employees five per cent of their wages towards the unemployed," that a new tax was unjustified and in reality illegal. Steps to test the legality of the Blairmore council's action will be taken.

At this meeting, which was presided over by Mr. L. L. Morgan, with Mr. R. Gray as secretary, it was decided to organize as the "Blairmore Business and Professional Men's Association." The officers of the new association are: L. L. Morgan, president; F. M. Thompson, vice-president; Robert Gray, secretary; and an executive of five members.

BLAIRMORE TENNIS CLUB

On April 13th, tennis enthusiasts met and reorganized for the 1933 season, with the following officers:

Honorary presidents—G. A. Vissac and J. A. Brusset.

Honorary vice-presidents—L. P. Robert and H. Blake.

President—Idris Evans.

Secretary-Treasurer—Fred Holmes.

Grounds committee—Louis Pozzi.

Jack McPhail, junior; Floyd Hottle.

Walter Tiberg, Sarah McVey and Edna Fisher.

Work on getting the courts ready for play is almost completed, and anyone interested in tennis can apply for either the president or secretary for membership. The fee is \$3.00 for the season.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"Canadian Houses of Romance," Katherine Hale; "The Greatest Wish in the World," E. Temple Thurston; "Felicity," Clara E. Laughlin; "Mid Summer Music," Stephen Graham; "Mr. Gumble Sits Up," Douglas Graham; "The Instrument of Destiny," J. D. Beresford; "The Warlord of Mars," Edgar Rice Burroughs.

Please note alteration in library hours, in future the library will be open Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 per year for residents and \$2.00 per year for non-residents.

HYMENEAL

The marriage of Joseph Little, pioneer of this district, to Mrs. Swan (nee Miss Mariel Kafoury), took place on Tuesday evening at 5 o'clock, Rev. A. S. Partington officiating. We understand that the happy young couple will reside in Blairmore.

According to records, the groom was born in the province of Ontario on April the 26th, 1852, so it is a good way to celebrate one's birthday. The bride is second daughter of F. S. Kafoury. Mr. Little was a widower, his former wife (nee Miss Mary Durkin) passing away in 1894.

The 104th anniversary of American Oddfellowship was celebrated by local Oddfellows and Rebekahs in the form of a social held in the Lodge hall on Thursday night last. Ten hands of whist were played, around twelve tables being at play. Luncheon was served, following which Joseph Montalbet, one of the pioneers of Oddfellowship in this district and one of the first past grands of the local lodge, was presented with a beautiful solid leather billfold. Mr. Montalbet hopes to leave on Sunday next for Italy, where he will visit old friends for a few months.

RUBBING THE CROWS'

NEXT PASS MUSKATEERS

A gentleman writing an op in letter published in the Calgary Herald, commenting on a meeting he attended at Macleod, which was addressed by three apostles of Russian Sovietism, recruited from workers of the Crows' Nest Pass, states, in part:

"I assume the speakers trying to spread the Red doctrines are probably honest in their ideas. However, that may be, I do not think the people of Canada are ready to live under birds like Stalin or to give up their children to the state to bring up, or to give up the same decent marriage laws we are living under for the 'trial' marriages of Russia. It is not long ago that we read in the press of some forty odd thousand Kulaks with their wives and children being herded hundreds of miles into exile, driven like cattle because they had offended the august and austere Soviet."

"In an address in Vancouver under the auspices of the District Council of the Canadian Legion, G. R. Holland declared he 'would prefer to eke out a bare existence in Canada than attempt to survive the hardships of the working class in Russia.'"

"I would suggest in closing that the three musketeers from Blairmore think over all this and if they still believe Russia to be the better country, I would remind them that there is no law here to stop them from removing to Russia. If they decide to do this I can give them the name of a farmer living outside of Macleod, who was driven off his two-hundred-acre farm in Russia and left for dead, but he managed to escape and came to Canada with his wife and children. No doubt, he would be able to give them much information, and if they have any doubts, the scar he carries on his hand when he was struck down with the same will be sufficient evidence to convince them."—Robt. E. Reardon, Macleod, Alberta.

THE ALCOHOL

GASOLINE ADMIXTURE

G. G. Coote, M.P., has introduced a bill at Ottawa to require admixture of a small percentage of alcohol with all gasoline sold in Canada for fuel purposes, says the Winnipeg Tribune.

The principal purposes of this bill seem to be (1) to advertise the fact that progressive statesmen are not ashamed to pick up an idea that looks good at a distance, and (2) to attach the name of Mr. Coote to an idea which is getting a good deal of free publicity these days.

Down in Illinois the legislature recently legalized 10 per cent alcohol gasoline—the idea being that this new use would absorb some of Illinois farmers' surplus of corn. Only one company—a farmers' co-operative—is distributing the mixture.

Results: Farmers are paying three cents a gallon more, for a fuel which is not as efficient as gasoline. The alcohol content is derived, not from Illinois corn, but from Louisiana molasses. A federal inspector gets a free ride, at the ratepayers' expense, on every car of alcohol, a fuel shipped from the distillery to the mixing plant.

Farmers and others have discovered that if a gallon of water is poured into a ten gallon can of the new motor spirit, the alcohol combines with the water and settles to the bottom. Result, nine gallons of gasoline and two gallons of very fair gin.

Perhaps it is not necessary to pursue Mr. Coote's motion further, but it is interesting to note that it takes 25 pounds of grain (or molasses) to produce one gallon of alcohol. In other words, about one-third of the fuel value of the grain is liquified by quite inefficient.

What is really needed is some portable apparatus which will convert grain into power on the farm. The best apparatus yet devised for this

purpose is the horse. Thousands of farmers, having learned this simple fact, do not require the ministrations of Mr. Coote nor the interposition of the federal authority in their power problem.—Edson-Jaspey Signal.

ALBERTA SCHOOL STATISTICS

A total of 3395 school districts with 5729 rooms were in operation in 1932 according to the annual statistical report of the provincial department of education. The enrolment in these schools was 170,795. There were 5541 teachers employed. The enrolment in the 53 city and town schools was 56,744, while in 17 separate schools there were 5881 pupils and 42,643 in other graded schools. In 646 consolidated schools there were 7,193 pupils. The record of attendance for all schools was 90.02% of the monthly enrolment. The average number of days for which the schools kept open was 195 while 96.7% of the schools kept open for more than 160 days. The interesting feature of the report is the fact that since 1912 the percentage of pupils in grades 7 to 12 has increased from 14.65% to 32.42%.

Advice has been given at Calgary, following recent outbreaks of unemployed, that "all single unemployed men who are taking part in picketing, parades or demonstrations of any kind in connection with the strike of unemployed married men, and who are being cared for at the kitchen, will be cut off relief at once."

Gideon Buckham, of Calgary, known to Pythian Knights throughout Alberta as "Dad" Buckham, died at Calgary on April the 21st, following a short illness. He was seventy years

of age, and came to Calgary in 1905, to found the Midnapore woolen mills, and later became Dominion government wool grader.

About two hundred coal miners in the East Coulee fields went on strike Monday, in protest against wage reductions put into effect by operators. With the exception of the Aetna Colliery, all East Coulee mines were affected by the walk-out.

Why Canada's Trade Declines.

Official figures of the trade of Canada for the fiscal year which ended on March 31, 1933, recently issued by the Dominion Bureau of Statistics at Ottawa, are of interest these days to a far larger group of citizens than those who usually make a study of statistical information as a guide to the trend of national and international affairs. Since the stock market crash of October, 1929, and the steady fall in prices of all primary commodities the world over, with all the concomitant evils of depreciated money values and violently fluctuating exchange rates, the farmer, laborer, store clerk, has taken an increasing interest in economics and eagerly reads all information on the subject available to him. The average man and woman has been undergoing a real education in the fundamentals which underlie national and international business relationships, and they have come to appreciate the fact that these things very intimately affect themselves and their families.

For this reason the figures referred to are of more than passing or mere statistical interest, because, in concrete form, they reveal just why it is that business of all kinds throughout Canada is so sadly depressed today, with unemployment general, and governmental relief services necessary for the maintenance of thousands of families.

The year preceding the crash of prices in October, 1929, was the biggest trade year Canada ever experienced. The official figures of imports and exports tell the story, just as the same statistics for the succeeding years down to the present time tell what has since taken place. For the information of readers of this column the figures for the past five years are here given, from the highest in the history of the Dominion in 1929 to the lowest since 1915, the year in which the Great War broke.

Fiscal Year ended March 31	Imports	Exports	Total
1929	\$1,265,679,091	\$1,388,886,075	\$2,654,575,166
1930	1,218,273,382	1,144,938,070	2,363,211,452
1931	906,612,680	817,028,948	1,723,641,628
1932	578,517,744	587,565,517	1,166,083,261
1933	406,213,972	480,821,297	887,035,269

These comparative figures disclose the fact that Canada's trade is now only one-third what it was five years ago. It is because of that fact that all business is depressed, no new enterprises are under way, tens of thousands are unemployed, railway equipment is largely idle and the companies in financial difficulties, government revenues are shot to pieces, and public debts and taxation of the people steadily increasing.

The loss in the total volume of trade is, of course, not quite as large as these dollar values of trade indicate because the value of all commodities is less today than in 1929; nevertheless the decline is startling. Furthermore, this decline in our international trade, import and export, is reflected immediately, and in practically the same proportion, in our internal trade between provinces and communities. The total falling off in trade is, therefore, enormous.

What occasioned this tremendous loss? Scores and hundreds of reasons are advanced, and most of them may be contributory or subsidiary causes. Many say the chief responsibility lies in the competitive capitalist system, and in the prevailing monetary and banking systems. But it was under these same systems that the trade of Canada and the world was carried on prior to and during 1929 and brought to the peak indicated by the figures given above. The monetary system worked while the trade of the country was moving and increasing, but when trade was checked and gradually killed off, there was not the same demand for credits, and credits began to dry up because that security which lies back of all credit was fast disappearing. Let trade be revived and prices will again rise, credits be called for and be forthcoming, because security resulting from increased and profitable trade would again be in evidence.

The question then is: What has so largely destroyed the trade of the world, Canada included? Despite the many, and often conflicting reasons advanced, the true answer is not far to seek.

The Great War destroyed millions of lives, maimed more millions who became pensioners of the State, destroyed tens of billions of property, imposed billions of debt upon the nations, upon which hundreds of millions in interest charges have to be paid annually. Not only these things, but the war left an even more disastrous train of bitter feelings, suspicions, and narrow nationalist views in its wake. The nations of Europe still fear each other, perhaps more so than ever, and continue armed to the teeth. But the war has taught them one lesson, and that is that food supplies for their populations are just as important, more so, in fact, than arms and munitions. Nations surrounded by enemies became convinced that they must become more self-contained if they are to survive in any future war.

So France turned its magnificent and highly profitable vineyards into less profitable but more essential wheat fields; Germany abandoned less essential forms of production to grow wheat; Italy did the same thing, giving large State bonuses; Russia embarked on its ambitious five-year plan, other smaller nations followed the same course. To encourage these programmes these nations imposed terribly high tariffs, prohibitory duties, and taxes against other countries. Instead of importing wheat, which they could have done much more cheaply and in every way more economically than growing it themselves, they stopped doing so. Producing largely for themselves, they had less of other things to export, and because other countries, Canada included, had lost their markets in Europe in which to sell their surplus products, they had no money wherewith to buy in those markets.

Every nation set out to become self-contained, and they did so because of fear of future war. All Europe is living in dread anticipation of war. Every policy is studied and decided upon in the light of future war. They are all getting ready for it. And one of the most important items in defence is to be able to supply all the needs of their populations if and when foreign countries are shut off.

Therefore, because every export by one country is an import by some other country, and every import by one an export by another, and with all determined to reduce imports to the vanishing point the inevitable automatic effect is to reduce exports to the same point. Thus is the trade of the world being destroyed.

That is the answer to the seeming riddle of the depression. It is not the existing economic system, including monetary systems that is at fault, "Fear"—fear of war. Until that fear is removed and confidence re-established, there can be no restoration of national or international credit; trade will continue to languish and grow less and less; the world depression will continue.

It is "Fear"—lack of confidence, that is destroying all credit and all trade.

Will Shoulder Burden

Canadians Paying Heavy Taxes But Will Not Tolerate Excesses

Jack Canuck for years has marvelled at the equanimity of John Bull in crises, and particularly his sang-froid in accepting heavy national taxes. The old gentleman has invariably shrugged his shoulders, smiled, tightened his belt and turned to the work in hand, tackling the most immediate problem with a nonchalance that was amazing to others.

Now Jack Canuck is getting a taste in a tax way of what to John Bull has become common. In other words, Canadians have come to realize that those who are earning and spending must be prepared to pay more into the coffers of the country to improve its financial position.

The Rhodes budget is heavy. It hurts. But when it is hurt he is apt to take a deeper interest in the reason for that condition. Hence Canadians will in the future scan governmental expenditures with a keener eye. They are willing to pay, willing to meet their just obligations, and will shoulder tax burdens like John Bull for the national good, but they will not tolerate extravagance or political whey pulling where public funds are directly or indirectly involved.—Kitchen Record.

Cattle Shipments Active

Fair Demand in Britain For Choice Canadian Cattle

There's a fair quantity these days of what may be regarded as the "roast beef of Old England" being served to the British people in their own country but which a short time before was being young steers in Canada. The shipments of live cattle from the Dominion to the British market are particularly active this year. From January 1 to March 23, 1933, a total of 7,863 head were exported from Canada to British ports, an increase of 7,863 over the corresponding period in 1932. With the opening of navigation on the St. Lawrence it is expected there will be heavy shipments from Montreal to live large orders already received from buyers in Britain.

Opinion Of Drigible Expert

Eckener Thinks Break Was Cause Of Akron Disaster

Dr. Hugo Eckener, dirigible expert, discarded the theory that a storm had caused the Akron tragedy, and said in his opinion, the cause of the crash was a break in the ship was caused by a break of the big ship in the airplane carrier room.

Dr. Eckener said he always had considered the room, in which fighting planes were stored, a weak point in the Akron framework. His comment came following New York reports tracing the Akron disaster to broken ribs in the huge dirigible.

Unbreakable Milk Bottle

Has Been Developed In Pittsburgh From Wax-Like Material

An unbreakable milk bottle has been developed in Pittsburgh. The bottle is first molded in one piece from cellulose to the shape of the standard half pint, pint, and quart glass containers. It is then impregnated through its entire wall thickness with a research creation, "opax," a tasteless and odorless wax-like material. The bottle will not suffer under constant exposure to water or lactic acid, it is said, and will pass through present types of filling and capping machines.

Secret Rediscovered

Dr. Ferruccio Zanier, of Trieste, Italy, claims to have rediscovered the process used by early violin makers who were able to produce the softening and sweetening effect of stringed instruments. He says that a resin obtained from plants that grow only in Persia furnished the base of the secret varnish used by Italy's classic violin makers.

Script Is Circulating

Raymond, Alberta, officials declare the town's script issue apparently found favour outside the town as one warrant was returned for redemption bearing the stamps of five Calgary banks.

Chestnuts, almonds, filberts, walnuts, pecans and other varieties of nuts have been successfully grown in the Okanagan Valley, British Columbia.

Delayed Taking Out Patent

Inventor Of Moving Picture Camera Lost Millions and Died Penitent

A recent report from the Surrogate office showed that Jean A. Le Roy, inventor, of the motion picture projection machine, died penniless. The millions of dollars that were rightfully but not legally his, went to others because he neglected to patent his invention soon enough.

An ironical feature was that Le Roy's last few years were spent in poverty. Paralyzed, he subsisted largely on the bounty of friends. All he had at his death was reputation but that he found he had been six months too late.

For many years, the origin of the motion picture camera remained shrouded in mystery. There were many claimants. An impartial investigation finally left the honor of being the father of the motion picture industry to Le Roy. But it was not until two and one-half years after he had perfected the first projection machine that Le Roy got the idea he should patent his invention. Then, he found he had been six months too late.

Le Roy's experience is not novel in the history of invention. He lived in an age when the commercial idea was not so prevalent as now. He gave his first public exhibition of moving pictures in 1894. His statement was that he never patented his machine expresses, perhaps, better than ever before, how so many inventors lived to see others reap the enormous profits of their genius. Said Le Roy: "I didn't patent my invention because I didn't realize what I had. That is the real truth. It was unfortunate for me that my knowledge of patents and patent law was exceedingly meager. Like the average inventor, I centered my interest in the invention itself, to the absolute exclusion of everything else."—From Zitz's New York.

Wheat Stocks Increase

International Institute Of Agriculture At Home Forecasts Increase

The International Institute of Agriculture, predicts in its semi-annual survey that wheat stocks will experience "a further and very appreciable increase" during the present season. On August 1, 1932, exportable stocks were 565,000,000 bushels, says the world wheat market, they will have risen to 650,000,000 by August 1 of this year.

"The burden of these stocks may be readily grasped from the fact that their total appreciably exceeds world requirements for the whole season," the survey states.

"It can only be hoped that in a short time the general world economic situation will improve and international commerce recover its normal course so that the very heavy burden of stocks that depresses so severely the world wheat market may be reduced to normal dimensions."

Mystifying Magic

New York Audience Sees Strange Things At Benefit Show

An audience in a New York theatre applauded another night as a woman "burned to death" before their eyes. They asked questions of a grisly skull and marched forward to have their pockets picked. One man even smiled as his new derby hat was used as a mixing bowl for pancake batter.

These strange events took place during the annual benefit show of the Society of American Magicians.

The audience relished Joe Kelo's derby hat trick and grinned delightedly as the borrowed derby was filled with batter, which changed mysteriously into six hot pancakes, leaving the derby steaming but unblemished.

A wood-burning automobile bus in operation in Germany is claimed by the inventor to effect an 85 per cent. saving in fuel cost.

Large Landward Movement

Many Families Have Been Placed On The Land Through Colonization Work

Between October 1, 1930, and January 31, 1933, the Canadian Government Department of Immigration and Colonization, the Canadian National Railways, and the Canadian Pacific Railway, working together, have been instrumental in placing upon farms in Canada a total of 10,733 families. These were families already resident in Canada. On the basis of five to the family this means 53,665 persons. This family settlement was confined to those who had sufficient capital to establish themselves on the land.

In the same period 23,253 single men were placed in farm employment. Adding these to the families, the impressive total of 76,918 persons actually placed on the land is reached.

Simultaneous with this movement land settlement activities were being carried on by the Provincial Governments. In one year—1931—the Government of the Province of Quebec placed 5,694 families in farm settlement, and in the three years 1930, 1931, and 1932, the Government of Alberta granted 19,223 homesteads to residents of that province. Similar activities were carried on by other provinces. In addition, there was a large landward movement entirely on the initiative of the individual settlers themselves.

U.S. Taxes Heavy Too

Comparative Figures Given By San Francisco Paper Are Startling

Tax money for 1932 could employ, at the \$15-a-week rate paid by relief agencies, no fewer than 17,948,711 men for a whole year.

The combined annual cost of our Army, Navy and Air Force equals less than three weeks' tax impositions for 1932.

The tax burden averages \$500 for each family in the land.

If all the paper currency in circulation throughout the country were added to all the gold, we would still owe the tax collector as much more again—and more.

This year's taxes could pay off every farm mortgage in the land, and provide hand-out to donate almost a thousand dollars to each of six million farmers.

The total salaries and wages being paid this year by two thousand thousand manufacturing establishments to some eight million, executives and employees will not match the Nation's tax claims.

Thirty-six Panama Canals could be built with one year's tax receipts.—The Argonaut, San Francisco.

Holding "Enjoyment Week"

Lord Mayor Of London Sponsors Seven Day Festival

Under the auspices of the Lord Mayor, London is holding an "Enjoyment Week," starting May 27 and concluding like the proposed exhibition in Gilbert's "Mikado," with "general rejoicings and a grand display of fireworks" on June 3, the King's birthday.

"A week of festival," says the Lord Mayor, "will undoubtedly have the effect of getting the people to take the brighter view of the situation. The situation, by no means as bad as is supposed in some quarters, either," adds his lordship.

Hardly secondary to this aspiration though is the desire to further popularize London as a tourist centre. It is hoped the program will include a pageant procession and a gala demonstration.

Record Of Flying Squad

Arrests made by the Flying Squad of Scotland Yard last year numbered 600; in 1930 cases the prisoners were violent, and 150 of the carried firearms. The strength of the Flying Squad is less than forty.

Indo-China sent more than 1,300,000 tons of rice to other countries last year. In 1931 it exported less than 1,000,000 tons.

One thing about sunsets is that small towns have just as big ones as the large cities, and a danged lot easier to see.

The Bowl Truth!

Ogden's Cut Plug will stand up under any cross-examination! It's ready to give you the "inside facts," the honest truth, about its finer flavour, richer fragrance and cooler smoking quality. No alibis for Ogden's. It's got the proof and its story never varies.

That's why men like Ogden's Cut Plug. You see Ogden's is just made for pipes, made to pack right, to light right... to smoke right. And your pipe will prove it!

OGDEN'S CUT PLUG

If you "roll your own", use Ogden's Cut Plug cigarette tobacco and Chandler cigarette papers

Police Discarding Horses

Automobiles and Other Conveyances Replacing Horses Of Scarlet Riders

The famous Royal Canadian Mounted Police have become mechanized and modernized to a large extent within the past few years. The horse, so closely associated with the scarlet coated force, is being replaced by machines.

With the added duties of customs preventive work and the fact that six provinces have scrapped their provincial police departments in favour of protection by the R.C.M.P., this force now has 2,500 officers and men. Their equipment is made up of 359 automobiles, 27 motorcycles, 13 trucks, 101 boats, both seagoing and for use in inland waters, 448 sled dogs, and only 256 horses. The dogs are still much in demand for work in the far northern sections of Canada although aeroplanes are rapidly coming into use to make in a few hours journeys that take days and weeks.

Reindeer Lake

The boundary between Manitoba and Saskatchewan passes through Reindeer Lake, the largest part being in the latter province. This lake is about 140 miles long with a maximum width of about 35 miles. Its greatest depth is approximately 80 feet and its water is very clear. It is dotted with many islands, practically all of which are covered with green timber. The shores are mostly rocky and abrupt, but some sandy beaches occur. The southern end of the lake is shown on the Reindeer Lake South map recently issued by the Topographical Survey, Department of the Interior.

Palpitation of the Heart Nerves Bad - Could Not Sleep

Mrs. Fred Bingham, Swift Current, Sask., writes—"I was bothered with palpitation of the heart, and my nerves were so bad I could not sleep."

I was getting desperate and confided my trouble to a friend who recommended me to use Milburn's Heart and Nerve Pills. I purchased a box and got such relief I would gladly recommend them to all who are troubled as I was."

Now sold at all drug and grocery stores; get only by The T. S. Milburn Co., Ltd., Montreal, Que.

BRITAIN FEARS A WORLD-WIDE TRADE WAR

London, Eng.—Great Britain was greatly perturbed by the abandonment of the gold standard by United States and in some quarters it was viewed as threatening a bitter world-wide trade war.

Many experts considered the action as a move to force Great Britain to return to a gold monetary basis. A section of the press denounced the American government.

Newspapers linked the action with the impending visit of Prime Minister Ramsay MacDonald to Washington, treating it editorially as a bargaining counter with which to greet him, and even as a threat.

Government quarters were beset with uncertainty as to just what President Roosevelt's move meant and economists were equally bewildered.

Two things did emerge clearly from Downing Street: The present official position is that Mr. Roosevelt's action was not, as some suggest, for the purpose of bludgeoning Prime Minister Ramsay MacDonald on the eve of the White House conversations, and secondly, there is no disposition on the part of England to try to debase the value of the pound in order to maintain the recent ratio in value of the two currencies.

British officialdom has taken a page from Mr. Roosevelt's book and at this juncture proposed "to let the pound take care of itself."

It was understood that the government's exchange equalization fund may be turned entirely to the purpose of holding the pound steady in relation to the franc whereas heretofore the fund was mainly employed to keep the pound from rising on the dollar exchange.

England's main concern is that trade advantages which she enjoyed because of her debased currency after her departure from the gold standard may no longer exist.

Sir Josiah Stamp, the famous economist, said: "It all depends upon what America is trying to do, her intention being unclear here for the present."

"The term 'going off the gold standard' is a matter for definition. It means one thing to one person and something different to another. Until it is known what is behind the American step we cannot weigh its import."

The Express contended Great Britain must not abandon its present position and that "under no condition must the pound return to the gold standard and be pegged at a level with the dollar."

It said: "That way lies the surrender of our independence to domination of Wall Street."

The Telegraph foresaw the possibility that President Roosevelt will ask Mr. MacDonald to effect a return of the British pound to a gold basis.

"The premier cannot grant that demand unless he receives assurance the conditions under which the gold standard could work smoothly would be provided by international cooperation."

No Political Jobs

Premier Bennett Says Appointment Of Rail Trustees To Be On Merit
Ottawa, Ont.—"I do say that the appointments of these trustees will not be political," Prime Minister R. B. Bennett promised the House of Commons committee considering the railway legislation.

Mr. Bennett then proceeded to define political appointments as those involving the selection of a man because of his services to a party and who possessed no other qualification for the position to be filled.

Mr. Bennett stressed difficulty of securing suitable men in Canada to fill important posts, for this country did not have the great reservoir of public men which existed in the United Kingdom.

No one knew better than the opposition leader what these difficulties were.

The number of men who are willing to serve their country at present is amazing, commented Mr. Bennett. To make the necessary selection was a most difficult task, particularly when confronted with the innumerable applicants "whose only qualification lies in their ability to provide pressure."

Defeat Sweepstakes Bill

Fosters Gambling Is Stood Taken By House Of Commons

Ottawa, Ont.—Canadian must continue to buy their sweepstakes tickets, if at all, in dark alley fashion, the House of Commons defeating a bill to legalize lotteries conducted for the benefit of hospitals. The six months' hold—a time-honored parliamentary way of killing a measure—was given the bill, 76 to 15, the vote cutting across party lines.

While at least one member drew a sweepstakes ticket from his pocket-book, nine Conservatives, five Liberals, and one Laborite supported the bill.

Premier R. B. Bennett, leader of the Conservatives, Rt. Hon. Mackenzie King, leader of the Liberals, and Robert Gardiner, leader of the Third-party group, united in opposing the measure.

The bill passed the senate after a rough passage but found few supporters in the elected chamber. The common ground for opposition was that it fostered gambling and would not assist hospitals.

Some Gold In Sand Pit

Small Quantities Found In Yorkton By Local Prospector

Yorkton, Sask.—Small quantities of gold are to be found in Yorkton's sand pit, it was discovered by Fred Carson, local prospector, who has had experience panning and prospecting for gold in northern Saskatchewan, Alberta and in the Athabasca country.

Mr. Carson explained to a press representative that when he made the discovery in Yorkton's sand pit he was of the opinion that the mineral was "fool's gold," more commonly known as mica, but he made a mercury test and convinced himself that the mineral was real gold.

He expressed the opinion that the gold flakes found in Yorkton's sand pit had been deposited there during the glacial period and stated that only between five and ten cents' worth of gold could be obtained from every cubic yard of sand in the pit.

Another Mount Everest Flight

Two Aeroplanes On Second Flight Negotiate High Mountain

Purneah, India.—Two aeroplanes of the Houston expedition flew over Mount Everest, the highest mountain in the world, for the second time within recent weeks.

The flights, which required exactly three hours, were made in good weather. The time of the flights corresponded with the first conquering of the peak on April 3, when planes flown by the Marquess of Clydesdale and Lieutenant D. F. McIntyre, crossed the lofty mountain.

Those who participated in the flight were the Marquess, Lieut.-Colonel L. V. S. Blacker, who participated in the first flight, Air Commodore P. F. M. Fellowes and a moving picture operator named Fisher.

At lower altitudes visibility was a bit hazy, but at the higher levels it was excellent.

May Continue Camps

Ottawa, Ont.—The government has under consideration the desirability of continuing relief camps for single men after April 30. Hon. Wesley A. Gordon, Minister of Labor, told John Vallance (Lib., South Battleford), in the House of Commons. No decision has yet been reached, he said.

Currency Stabilization

U.S. Going Off Gold Standard May Help Canada

Toronto, Ont.—Officials of Canadian Bank head offices in Toronto declined to comment on the statement by W. H. Woodin, secretary of the United States treasury, that prohibition of gold exports had sent United States off the gold standard.

One high official said, "In all probability currency of the United States and Canada would now find a more equal level and there possibly would follow a rise in commodity prices in which the Dominion would share."

"At any rate," he added, "United States going off the gold standard will have no adverse effect in Canada."

UNITED STATES GOES OFF THE GOLD STANDARD

Washington.—The United States swung away from the gold standard as President Roosevelt prepared to ask congress for new powers to effect a controlled inflation.

Withdrawal of gold support for the American dollar in foreign exchanges by the president was interpreted by his secretary of the treasury, William H. Woodin, as meaning temporary suspension of the traditional gold standard basis of currency.

In his first move, the president boldly put himself into a position to negotiate for a revised world gold standard by withdrawing support of the American dollar in foreign exchange to combat the depreciated currencies of the foreign nations now off the standard.

He has in mind bringing all nations back to the gold standard as a measure of stability, but he is considering a new standard whereby the present ratio of 40 per cent. gold reserve for currency would be reduced.

He will look for common action by all the nations in establishing the new ratio which will permit more currency to be circulated on the same world supply of the precious gold basis.

Meanwhile, the Roosevelt administration attacked the problem from its purely domestic angle. Governors of the 12 Federal Reserve banks reported promising outlooks to Secretary Woodin, and then studied means of pumping available idle currency into circulation.

The governors also tackled the task of freeing the four to five billions still locked up in closed banks. Quick action appears in prospect.

Just how the gold embargo reacts to raise American commodity prices is somewhat involved and difficult of explanation. It was explained, that cotton, for instance, is sold on the gold basis.

On the present gold basis the rate is about six cents a pound. Should the price of gold slide off 10 per cent, a resultant increase in cotton of 10 per cent is regarded as inevitable.

The president apparently has won a respite from the leaders in congress who have been hammering hard for outright currency inflation.

Mr. Roosevelt considers the heart of the problem the raising of the price level. But he wants it raised in such a manner that it will be under control at all times and not permitted to go too high.

NEW SPEED KING

Hurling his speed aeroplane over Lake Garda, Italy, at 426.4 miles an hour, Flight Officer Francisco Agello, who was a member of Italy's 1929 Schneider Cup team, broke the world's record which was set up two years ago by Lieutenant George Stainforth of Great Britain. The Britisher's speed was 408.997 miles an hour.

Can Be Made Public

No Taboo On Correspondence Over Finances Of Provinces

Ottawa, Ont.—No reason exists why correspondence between the federal government and the western provincial governments with regard to the financial conditions of these provinces should not be made public, Prime Minister R. B. Bennett told Rt. Hon. Mackenzie King, opposition leader, in the House of Commons. The correspondence tabled a few days ago in the Manitoba House covered that province and also the other provinces so far as the federal end of the matter was concerned. One of the provinces had not yet replied, the Prime Minister added. However, in spite of that, he saw no reason why the correspondence should not be tabled.

Present Problem

Unemployed In Saskatchewan Flock To Cities

Regina, Sask.—Single unemployed are coming in from farms, where they have been assisted all winter by the Saskatchewan Government, and are presenting a problem to officials. The population of the camps at Regina, Saskatoon and Moose Jaw has jumped by about 400 in the past month.

The men were paid \$5 a month by the relief commission and placed on farms. The farmers are now letting them go, stating they are not in a position to pay them wages during the summer.

Few farmers are taking men in Saskatchewan at the present time.

Agree On Pensions Act

Ottawa, Ont.—An "amiable agreement" between the government and representatives of the associated veterans emerged from a Pension Act conference which Prime Minister R. B. Bennett and Minister of Finance E. N. Rhodes held with spokesmen of the ex-service men, according to a statement issued by the veterans following the meeting.

Endorses Roosevelt Action

J. F. Morgan Pleased With Embargo On Gold Exports

New York, J. F. Morgan, in one of his rare public statements, endorsed President Franklin Roosevelt's action in suspending gold exports.

"I welcome the reported action of the president," he said in a written statement, "and the secretary of the treasury in placing an embargo on gold exports."

"It seems to me clear that the effort to maintain the exchange value of the dollar at a premium as against depreciated foreign currencies was having a deflationary effect upon already severely deflated American prices and wages and employment."

"It seems to me clear that the way out of the depression is to combat and overcome the deflationary forces. Therefore, I regard the action now taken as being the best possible course under existing circumstances."

It was the first public statement issued by the traditionally reticent head of the house of Morgan since his statement in London in Sept. 1931, when he described the British suspension of gold payments at that time as constructive, under the circumstances.

Will Attempt Atlantic Flight

'Plane Used In The Gold Fields Of The North To Be Used

Toronto.—The well-named "Sourdough," veteran monoplane of the Northwest Territories and the sub-Arctic gold fields, which has been flown by many northern pilots, will have a new and even more thrilling experience within two months.

The "Sourdough," with J. D. M. Gray, Scotch-Canadian, at the controls, will attempt a flight from London, England, to Toronto in the first week of June. J. E. Hammett, well known mining man, has donated the monoplane to Gray, a Toronto pilot, for the flight.

BRITAIN PLACES EMBARGO ON SOVIET IMPORTS

London, England.—An 80 per cent. embargo on Russian imports was proclaimed through King George as a result of the trial in Moscow of six British electrical engineers.

Shortly thereafter, however, there were authoritative indications that the action might be revoked if prison sentences of two of the Englishmen would be commuted to banishment from Russia.

Soviet Ambassador Malysky, chairman of the Russian trade delegation, and his chief assistants conferred with Sir John Simon, secretary for foreign affairs, and officials of the board of trade in an effort to avoid the break because of the crisis.

The British Labor ranks, aroused by the threatened rupture, summoned leaders of trade unions to a conference with the Labor party and Laborite members of parliament to consider the whole question of the embargo.

George Bernard Shaw, returning home from a world cruise, immediately jumped into the controversy with the statement that "all people trying to provoke war with Russia should instantly be hanged for practical treason to their own country."

The British government, empowered last week by parliament to declare the embargo, has insisted it is primarily concerned with the safety of its subjects in Russia. Great public interest was aroused.

If the embargo is carried out, 80 per cent. of Soviet goods intended for importation into Great Britain would be banned, including all important commodities except furs.

Commercial and credit relations between the two countries would be left in a tangled state.

The government's drastic action was based on a policy of protection for British citizens in the Soviet Union, and so far it has been considered successful since the Metropolitan-Vickers employees received light sentences.

The British government has contended that its prime concern was the safety of its subjects in Russia. On the basis of current trade figures, the embargo going into effect on April 26 will bar imports aggregating \$9,600,000 annually.

It was authoritatively stated that 80 per cent. of Russian imports will be affected. All grain, butter, raw cotton, petroleum and timber will be excluded.

OBLIGATIONS TO U. S. ARE HELPED BY NEW TURN

Ottawa, Ont.—Some conception of the effect upon Canada of a return to par of Canadian money in the United States market may be secured from a Dominion Bureau of Statistics report which shows Canada's total obligations, payable in United States funds during the calendar year 1933, to be \$266,125,000. This covers interest on bonds and principal of maturing bonds repayable in United States money.

These figures include obligations of Dominion, provincial and municipal governments, and corporations. With the premium at last Monday's figure, the additional amount which Canada would have to add to these payments would be over \$50,000,000. Every advance of the Canadian dollar toward par, therefore, if maintained, would mean a saving of millions. Assuming the obligations due up to the end of March of this year have been met, these Canadian debtors would still have to pay out, in United States funds if demanded, about \$225,000,000 over the remaining nine months of the year.

Premium rate of 13 1/2 per cent. on American funds, as compared with around 20 a few years ago, would mean a saving of approximately \$15,000,000.

In addition, commentators foresaw increased values in wheat and other commodities as reacting favorably and a consequent stimulation of foreign trade with improvement in the exchange situation. What disadvantages there are, it was believed, would be offset by advantages, so far as Canada is concerned.

Bank Interest Reduced

Cut Applies To All Financial Agencies Accepting Savings Deposits

Montreal, Que.—The Star said: "Reduction of interest rates on savings deposits in Canada will become effective on May 1, according to reliable information here today. A formal announcement to this effect will come shortly from the Canadian Bankers' Association. The cut in rates will apply to all financial agencies accepting deposits in the country."

"Bank interest rates, on an average, will be reduced to 2 1/2 per cent. and trust companies, which have hitherto been paying four per cent. on deposits. This matter has been under consideration for some months, and has been given the unanimous support of the banks, the savings banks, the provinces and such other institutions as receive deposits."

The move is in accordance with the prevailing world trend of money rates, and should tend to lower the cost of new financing in Canada."

B.C. Exhibit

Fine Display For International Grain Show At Regina

Victoria, B.C.—Hon. W. C. Buckle, Minister of Agriculture for Saskatchewan, is in Victoria conferring with the British Columbia government in connection with this province's natural resources exhibit at the international grain show, to be held at Regina in July. British Columbia will have space, 100 feet long and 15 feet deep, the central feature being British Columbia finished woods, the wings on either side being devoted to agricultural, mines and fisheries exhibits with game heads as decorative displays.

Shaw Reaches England
Southampton, Eng.—George Bernard Shaw, arriving home from a cruise of the world, declared, after visiting 29 countries, he thought perhaps the best place in which to live would be heaven. He denied reports he had made Anna Harding cry when he was in Hollywood.

'Plane Crashes Kills Four

St. Louis.—Four persons, one a wealthy Arkansas planter, were killed when the aeroplane in which they were flying from Augusta, Ark., to St. Louis, crashed and burned in a wheat field near Vaineville, Ill., about 25 miles south St. here.

Leads In Lumber Shipments

Victoria, B.C.—For the last three months British Columbia has led Pacific lumber shipments in the United States trade. Hon. W. S. Loughheed, Minister of Lands, said in commenting on the resumption of logging in Vancouver Island woods, and the reopening of mills that had long been closed.

BRITAIN'S MOSCOW AMBASSADOR ARRIVES HOME

Here is Sir Edmund Wood (left), British Ambassador in Moscow, walking over to 10 Downing Street for a consultation with the Prime Minister and the British Cabinet regarding the arrest and trial of British subjects in Moscow. With Sir Edmund is Sir Robert Vansittart (right) British Under-Secretary of State for Foreign Affairs.

MOTHER'S DAY

Lacking the alloy of mother love, humanity would shatter of its own cold brittleness. Were Mars not motherless, he would break his sword across his knee and become a soda jerk or a trade envoy, for mothers have a way of making Peck's bad boys grow good. As it is, whatever is warm, mellow or sweet in this world, traces back to motherhood.

We, who were fortunate in having mothers who were not taken from us by society, by stores, by factories, by twisted ideas of philanthropy, or by the grim carman of Stys, gratefully salute our mothers—all mothers—on Mother's Day—reverently, reverently. And those among us whom circumstances robbed of mother surveillance gladly do honor to motherhood as they would to temples divine.

It is well that we wear flowers on Mother's Day, for flowers are the petal perfumes from the gift-box of that other mother, nature—gentle breaths of sachet from sweet meadow bosoms, paying quiet tribute to soft vowels of love—Holland's Magazine.

AND THIS IS QUITE TIMELY

The Alberta Government Telephone may have suffered financial adversity last year, but the fact stands out like a sore thumb that the administration has not met the public by increasing the attractiveness of the service, such as other commercial enterprises have found it necessary to do. The rules are bound up in petty annoyances to the subscriber, the rates are high, and as it now stands the telephone is disconnected on the least provocation and long-distance service used only as a last resort. Whoever is responsible for the telephone administration should come to life and recognize the fact that times have changed—even though telephone rates have not—and the same quality of service that was given in 1929 is not being given now, and now is the time that the quality of service should be increased in order to retain the good will of the public and hold up the volume of traffic. It seems easy for bureaucracy to enter into the life of publicly owned utilities, and the telephone department is one place where the provincial government should rejuvenate or clean house.—Clareholm Local Press.

A guy walked into the Blairmore Hardware store a few days ago and asked: "I want a pound of ochre?"

Dick: "Is it red ochre for making paint you want?"

Customer: "No, it's tappy ochre for making pudding."

The production of leather footwear in Canada during February amounted to 1,200,276 pairs, representing an increase of thirty per cent over January.

Mr. O. Jacobson succeeds Mr. Mitchell as drummer in this territory for Gainers Limited. Mr. and Mrs. Jacobson were in town this week. Mr. Jacobson's headquarters are at Cranbrook. Mr. Mitchell was recently transferred to Nelson.

The annual meeting of the Canadian Weekly Newspapers Association will be held for three days during the first week in September, in Vancouver. It is the rule to hold the convention in a different province each year. It is about ten years since it was last held in the coast city. The incoming president will be Charles Clark, editor of the High River Times, who will succeed A. W. Marsh, of The Echo, Amherstburg, Ont.

There were 44,583 radio sets in use in Alberta in June of last year.

Consolidated Mining & Smelting Co. have resumed operations at their camp near Crow's N. S.

Dr. and Mrs. Borden, of Coleman, were recent visitors with Mr. and Mrs. L. M. McLean at Lethbridge.

The late Mrs. Timothy Eason left an estate of \$661,437, all bequeathed to members of the family.

The northern Alberta railways have announced a works programme for the coming season totalling \$441,700.

The Bellevue baseball club will hold their dance in the Oddfellows' hall at Bellevue on Friday night of next week.

A midnight frolic will be given by the unemployed baseball team in the Union hall at Hillcrest on the night of April the 30th.

W. Gunn and C. Milvain, of Lundbreck, and Lena M. Godfrey, of Coleman, were recent visitors to the Calgary museum.

The work of planting some three thousand caragana bushes around the central school grounds has commenced. The trees were brought in from Saskatchewan.

The death of Mrs. T. McNabb at the ripe age of seventy-two, occurred at Lethbridge on April the 19th. Mrs. McNabb came to the Lethbridge district in 1885.

Fumes from London docks, where \$60,000,000 worth of rum went up in flames last week, were radioed to Nova Scotia. Even the driest folks in the province became intoxicated.

The Drumheller Mail remarks: If the Alberta legislature can forget to refund that five bucks on the car license, why don't we all forget to pay our income tax?

The body of Kenneth A. Blatchford, former mayor of Edmonton, was found in the Saskatchewan river on Saturday last, with a bullet wound in the right temple.

The three men convicted recently of attacking and causing grievous bodily harm to one Martin Zubersky at Blairmore, have been granted leave to appeal.

The body of Stewart Ashley, nineteen-year-old Vancouver teacher, who was reported kidnapped several weeks ago, was found in a slough near Victoria. A \$5,000 ransom had been demanded from his father.

Rumor has it that the executive of the local union of the M.W.U. of Canada have been warned that if they attempt to parade here, or in the district, on Monday next, May day, they will be held responsible.

The married unemployed men of Edmonton have organized the first co-operative bart club in the province, through which arrangements will be made for the men to exchange services for goods.

The marriage of Miss Dorothy MacNicks, only daughter of Mr. and Mrs. H. C. Nicks, to Raymond Boyd Lang, youngest son of Mr. and Mrs. Robert Lang, both of Mountain M.P., was solemnized by Rev. W. M. Whitmore at Pincher Creek on April the 18th.

Two girls borrowed the horse and buggy to go for a drive. The farmer assured them the horse was gentle and good tempered, provided the rein was not permitted to fall on his tail. On their return, the farmer asked, "Was he quiet?" "Splendid. There was one smart shower, but we took turns holding the umbrella over the horse's tail."

It requires 570 bees working during their entire lifetime to produce one pound of honey, their average total working time being from three to six weeks. During 1931, it is estimated there were produced in Canada 27,867,297 pounds of honey, which at 570 bees per pound, equals—well, you can figure out for yourself how many bees would be required to produce this amount.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larkin, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, April 30th, the minister in charge.

11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.
7:30 p.m.—PUBLIC WORSHIP.
Sermon: "In His Steps."

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partridge, B.A., Rector

Services Sunday, April 30th.
Sunday School in the hall at 10 a.m.
Morning service in the church at 11 o'clock.

A chapter of the I.O.E.E. was organized at Macleod recently.

A drop in the crime wave since the introduction of jig-saw puzzles is reported in the United States.

The town of Claresholm will celebrate its thirtieth anniversary on July the 5th.

Teddy Mutz has sold his Sunshine service station at Valcan to William Rodney.

The following ad appeared in a daily paper: "If a stray cow will call at the pound office, she will find her helpmeet."

The annual convention of the Mine Workers' Union of Canada will be held in the Triam hall, Lethbridge, on May 5, 6 and 7.

The marriage of Mrs. Ruth G. Mitchell and Mr. Matthew Wood, both of Lundbreck, took place at Pincher Creek on April the 19th.

Jack Taylor lost the Canadian and British Empire heavyweight wrestling title to Earl McCready, of Amulet, Saskatchewan, at Calgary last week.

A philosopher says: "A man accomplishes an ideal marriage when he finds a beautiful girl and a good housewife." And here all the times we thought that was bigamy.

The new issue of seven-million-dollar city of Montreal five per cent twelve-year sinking fund bonds was fully subscribed a few hours after it was offered.

Mrs. Sid McCabe and family, who had been visiting at Cowley, Alberta, are the guests of Mr. and Mrs. James Simpson, enroute to their home at Grand Forks—Cranbrook Daily Tribune.

Speaking of a newly married couple at Coleman the other day, Mr. H. H. Well remarked: "She treats him like a Grecian god." "How's that?" asked Bill Bell. "Well, she places a burnt offering before him at every meal."

Alberta will be represented at the world grain congress at Regina in July with an exhibit of natural resources, under the auspices of the provincial government. There will also be some 200 individual entries of grains in the various competitive classes from farmers.

Over four million foreign automobiles were entered for touring purposes last year through Canada's frontier ports, a decline of about 800,000 from the previous year. There was also a shrinkage of about 160,000 in the number of Canadian cars reported outwards for touring.

Laddie Soukup, our bespectacled young bachelor, leaves this week for Blairmore, from whence "he'll bring back his bonny bride and live as two heretofore." Yes, after many years of single bliss Laddie is in the way of all flesh and will join the ranks of the benedicti. Our best wishes are extended to Laddie and his bride.—Kimblerley Press.

A meeting of the Crow's Nest Pass football league will be held in Fernie on Sunday at 1 p.m.

The Forestburg Herald, started some years ago by J. D. S. Barrett, has ceased publication.

There are now believed to be eight hundred billion stars in an Alberta night sky. Marc Plard reports locating seven extras.

Murphy has yet got to show the average person who can think for himself that he is doing anything in the best interest of Canada.

The Calgary Eye Opener, an illustrated monthly publication, published in Minneapolis, Minn., is now prohibited entry into Canada.

Sam A. Fraser, of Pincher Creek, has been awarded the contract to build the Olsen district school, replacing one destroyed by fire recently.

Statistics have been compiled to show that the home bathtub has become a greater source of accident than the railroad. Soap and slipperiness are responsible. It appears that the remedy lies in giving the tub a flat instead of curved bottoms, which afford no hold and lead to numberless falls with bruises and fractures. Thus does civilization imperil its votaries.

An exchange remarks: Henry Ford, who had such a quantity of cash on hand that it choked the Michigan banks, has been expressing his contempt for its worthlessness as an article. He sees no good in it. Certainly when packed in storage, from which he did not move it on terms that prevented any one else from doing so, it vindicated his claim. "Money," said the wise Lord Bacon, "is like manure; of very little use until it is spread."

Fish stories haven't all been told yet. Here's the latest from "Jock" McAndrew. He states that he one time last summer attempted to use a new camera to get a picture of a large fish he had caught that day, and the fish was so large that when he pressed the button, the camera exploded. And still another one is told of two local chaps preparing to go up the North Fork last summer. Gathering camping equipment, one asked the other what else was required. The answer came, "Plates." Well, figuring he was going on a fishing trip, the other carried along a "fish plate," stole from the C.P.R.

In connection with press despatches telling of the new giant Cunarder under construction in Great Britain, which will have a length of 1,018 feet, there are three dry docks in Canada capable of accommodating the huge leviathan. On the Atlantic, Saint John, N.B., has a dry dock 1,150 feet long and 133 feet wide and another at Lauzon, Que., of the same length. On the Pacific there is a dry dock at Esquimalt also of the same length. The dry dock at Lauzon has a width at the coping of 144 feet and 105 feet at the bottom; that at Esquimalt, 149 feet at the coping and 126 feet at the bottom. All three have a depth of 40 feet.

The special low round trip fare the two railways quoted from Winnipeg and prairie points to Vancouver and Victoria during the Easter period turned out a successful experiment. Thousands of people from Western Canada were given the opportunity of visiting the Pacific coast under most favorable conditions; most of them remained, on an average, 12 days. The transportation cost was low and the passengers found the climate and the gardens on the coast practically at their best. The outdoor daffodils and tulips were in full bloom and presented a most welcome sight to the resident of the prairies, especially after their rather severe winter this year. The special low rates resorted to were good in coaches and tourist sleepers, and proved one of the most popular bargains of the year.

THE LONG VIEW PAYS

Experience proves that it pays to look ahead and make provision for unknown future needs when one is able. Regular deposits in a Savings Account soon accumulate. The money is always ready for use, and it never depreciates in value.

THE ROYAL BANK OF CANADA

BLAIRMORE BRANCH - J. B. WILSON, Manager

From Our Own Correspondents

HILLCREST HAPPENINGS

Mr. and Mrs. R. Stenhouse were Calgary visitors last week.

Miss A. Patterson, of Calgary, was a visitor at the home of Mrs. Martin over the Easter holidays.

Miss Helen Westrup returned to Calgary on Sunday last.

Mrs. Aitken, of Fernie, has been a visitor at the home of her mother, Mrs. J. Mackie, over the holidays.

The series of grand concerts, under the auspices of the Hillcrest String Orchestra and the Blaimore Concert Orchestra, was completed by a highly successful concert in Coleman on Wednesday evening last.

Miss Mary Davies returned to Calgary on Monday, to continue her studies.

Miss Eva Sharetta has been practicing teaching in the Cowley school during the week, while Miss Alice Greener has been doing similar work at the Gadsbills school.

Miss Irene Turner returned on Saturday from Coulters, where she had been spending the holidays with friends.

Mrs. W. H. Moser, accompanied by Miss M. Graham and Miss A. Penman, of Bellevue, motored to Granum last week.

Little Miss Mary Adlam entertained a number of her friends on her sixth birthday on Thursday evening last. After an enjoyable supper, the children were entertained with games, and everyone had a good time.

Miss B. C. Sellon returned from Calgary on Sunday evening last.

Miss E. Strachan was a Calgary visitor over the week end.

David Haulton, of Pincher Creek, was a visitor at the home of Mr. and Mrs. W. H. Moser over the week end.

W. Hutchison returned from Vancouver last week.

Mr. and Mrs. J. Aitken and family returned to England on Saturday last.

The two-months-old son of Mr. and

VARICOSE ULCERS HEALED AT HOME

No Time Lost from Work!

No enforced rest. No operations nor injections. The simple Emerald Oil home treatment permits you to go about your daily routine as usual—while those old sores and ulcers quickly heal up and your legs become as good as new.

Emerald Oil acts instantly to end pain, reduce swelling, stimulate circulation. Just follow the easy directions and you are sure to be helped. Blaimore Pharmacy won't keep your money unless you are.

LONELY? Want to marry? Send 2c for list of people. Both sexes to choose from. Also your description. Many satisfactory marriages—Trans-Canada Matrimonial Bureau, per Box E., Blaimore.

GENTLEMEN—Sanitary Rubber Goods. Send for catalogue or one dollar for fifteen assorted samples. New kinds. Highest quality. Post-paid in plain wrapper same day as order received. National Distributors, Box 443, Regina, Saskatchewan.

LODGE DIRECTORY
Blaimore Lodge No. 68, I.O.O.F.

Meets First and Third Tuesdays at 8 p.m., in the Oddfellows' Hall. Officers for the ensuing term: A. Decoux, N.G.; J. A. McKay, V.G.; A. M. McKay, recording secretary.

Livingstone Lodge No. 22, KNIGHTS OF PYTHIAS
Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C.C. Thos. Gale, K. of R. & S. B. Senier.

BLAIRMORE LODGE NO. 18, B. P. O. ELKS
Meets Second Tuesday at 8 p.m. in the Lodge Hall. Visitors made welcome. J. R. McLeod, E.R.; John A. Kerr, secretary.

Mrs. E. Semenzin died in a Calgary hospital on Monday morning. The remains were laid to rest in the Hillcrest cemetery yesterday.

Mr. and Mrs. W. Adlam and family motored to Lethbridge on Saturday last.

Mr. and Mrs. W. Webster and family returned Sunday from Mountain View, where they spent their Easter vacation.

Mr. and Mrs. L. Purnagalli and Mrs. H. Instone motored to Calgary over the week end.

Arthur Abbott passed away in Calgary and was buried there with full military honors. He was a member of the first contingent of the Princess Pata regiment.

J. Collins returned from Calgary on Monday morning.

G. Iwasaki has been appointed to make the annual assessments for the Hillcrest school district.

A number of local boys attended the Boy Scouts' convention in Lethbridge last week.

BELLEVUE HAPPENINGS

Miss Beattie Morris arrived home from Calgary on Saturday.

Mr. and Mrs. M. McEachern returned home Saturday from Edmonton.

J. H. McLean was a visitor to Calgary for the week end.

Miss M. Graham and Miss Anne Penman were visitors to Granum for Thursday and Friday.

Bram Goodwin arrived home on Friday from Calgary.

Mrs. J. Radford, Mrs. R. Stevens, and Doreen and James Radford were Lethbridge visitors on Saturday.

Jack Wood, Joe McIntyre, Jerry McIntyre and Fred Radford, who had been attending the patrol leaders' training course at Lethbridge, returned home on Sunday.

Mr. Kennedy returned to town on Sunday.

The annual Tennis Club whist drive and dance was not very well attended. Whist honors were won by: Miss Esther Chiaravano, ladies' first; Miss Martin and Miss Beatrice Trono tied for second, with Miss Trono winning the cut; N. Spooner, gent's first, and Joe Dowson second. The crowd enjoyed dancing to music by the Arcadians.

Miss Dorothy Ball left on Sunday afternoon for Calgary, where she will continue her studies at the normal school.

Miss Marie Lamey left for Calgary on Sunday afternoon, where she will continue her studies in Grade XII.

Mr. and Mrs. J. Brooks, junior, are rejoicing over the advent of a daughter on Monday.

COWLEY HAPPENINGS

A dance, sponsored by the ladies of the Roman Catholic church, was held in the Lundbreck community hall on Friday night. The Len Davis orchestra was in attendance.

Miss Dorothy Irwin has returned to Calgary normal school, after paying her people here a visit and doing practice teaching under Miss Jennie Heibeln, of Todd Creek school.

Mr. and Mrs. Hermiston, of Lundbreck, are receiving congratulations upon the birth of a son.

Mrs. Gerald Bradshaw entertained the Cowley ladies at an afternoon bridge party at her home on Tuesday, in aid of the Anglican church fund, when the prize was won by Mrs. Bradshaw.

The Busy Bee Club was entertained by Mrs. Harold Cleland at her home on Tuesday night.

Miss Charetta and Miss Higginbotham did practice teaching in the Cowley school this week.

Mrs. George Porter is paying a visit to her daughter, Mrs. Hamilton, at Macleod.

Mr. and Mrs. Hamilton, of Macleod, are the proud parents of a baby girl, born the early part of the week. Mrs. Hamilton will be remembered as

former Miss Kathleen Porter, of Cowley.

Following is report of the senior room of the Cowley school for the Easter review, arranged in order of merit: Grade X—Netta Swart, Josephine Porter, Marion Morrison, William Willoughby, Barbara Bundy; IX—Clare Bundy, James Mackay, Lillian Porter, Muri Smyth, Edith Murphy, Gordon Swart, Jack Bundy; Grade VIII—Marcel Perreault, Mary Perreault, Muriel Marlow; Grade VII—Florence Potapoff, Lloyd Morrison, Sylvia Murphy, John Vaykin, Irene Freeman, Florence Maisonneuve, Muriel Easterbrook, Regina Maisonneuve (absent); Grade VI—John Konkini, Annie Faminow. The twelve pupils in Grades IX and X, taking from six to eight units, averaged 65 marks.

THE COST OF PROHIBITION

Many of the states are in a jumble as to how they shall select delegates for the conventions which are to pass on the suggested repeal of the Eighteenth Amendment, and the progress toward that end continues to be slow. Maine, the pioneer prohibition state, has refused to reopen the question of altering her dry law which has stood since 1852. Meanwhile some one has figured out the cost of prohibition in the nation since its enactment. The gigantic total is set at \$3,546,005,924. Besides this the government has lost \$18,526,200,000 in revenue. Efforts at enforcement have caused the deaths of 513 officers and 2,069 citizens. Property estimated to be worth \$2,922,622,900 has been kept padlocked more or less of the time and 62,518 automobiles have been confiscated, presumably as rum runners. Boats and launches to the number of 1,502 have been seized for the same reason. These are not flattering figures. They eloquently display the expense of endeavoring to run contrary to popular desires. The possibility of a sensible and reasonable solution of the problem is doubtful.—U.S. Ex.

A UNIQUE CIVIC IMPROVEMENT SCHEME

The town of Raymond, south of Lethbridge, which is the centre of the sugar beet industry in Alberta, has adopted a unique plan for civic beautification. Through the board of trade a complete survey of every house, building and lot has been made by a committee of experts, officials of the provincial and dominion governments living in the vicinity. The undertaking was for the purpose of giving directions and suggestions to each property owner for beautification and development. The result has been the development of a keen interest in the work, and this summer is expected to see many of the ideas and suggestions offered carried into effect.

Apple blossoms are already in full bloom in some parts of the Annapolis Valley of Nova Scotia.

DOMINION BANKRUPTCY GOOD BUSINESS

Declaring that if the Canadian people could not pay for their luxuries and expensive services without adding to the host of unemployed, then they should "go into a dignified bankruptcy," A. L. Smith, K.C., delivered a stirring address on "George and Marrie England," at the annual St. George's Day dinner of the First Battalion, Calgary Regiment, in the officers' mess at the Armouries, Saturday evening.

"Our background is British, let us keep our respect, let us pay for these things if we can, and if not go into dignified bankruptcy," he said, stating that recovery could not be made until purchasing power has returned, which could not be brought about by continuing to "fire people." "Let us who have the odd dollar pay for it to the utmost," he advised.

The speech was built upon Noel Coward's powerful play "Cavalcade," being somewhat of a "cavalcade of Canada" in the Dominion's relation to England. "A nation such as we are, restless, somewhat in distress and with a government perhaps in a condition of near panic, this Canada, this part of England, can never survive, while we seek to take from the returned soldier and his dependents that which is their sustenance, while rich men dwell in the land," the speaker declared.

Rich men were organizing into research bureaus or taxpayer's associations and going after those in authority to make them "fire people when it doesn't mean a ha'penny to our mill rate," he said. He was glad to see that Mayor Andy Davison was present.

His life as a boy in Regina and his thoughts regarding England in those days were traced by Mr. Smith. He approached his subject as a young Canadian lad in his forty-eighth year, he told the officers. He spoke of his growing realization of the importance and greatness of England, and told of the feelings which had "tingled" through him when he saw the King in London in 1923.

"My King was there. That is the basis upon which our country was born and will live. My King went riding by, and I felt then as I believe now, that forever and forever as long as guardsmen live, his personal safety will be secure, and he will look out on chaps like me with perfect understanding," Mr. Smith said.—Calgary Herald.

A business concern in Nova Scotia has received an order for five hundred buck tails from a large sporting goods house in the British Isles. The tails are to be used in making bucktail trout and salmon flies.

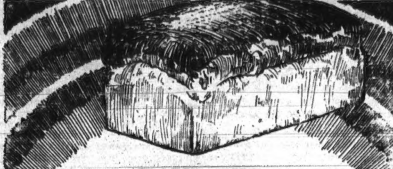

(Single unemployed men, who have been receiving relief in rural districts of the province on authorization of the provincial relief commission, will be cut off the relief lists on May the 1st, according to A. A. McKenzie, of the relief commission.

Golden Text: "As ye would that men should do unto you, do ye also to them likewise."—Luke 6:31.
Lesson: Mark 10:1-31.
Devotional Reading: Philippians 2:1-11.

Explanations and Comments

Jesus the Children's Friend, verses 13-16.—Jesus was much displeased when His disciples rebuked parents for bringing their children to Him that He might bless them. One commentator observes that the fathers of these children brought to Jesus have not had fair play, for in all the pictures of this scene, not one depicts a father as taken part in it. Yet there were fathers as well as mothers present, for the particle in the Greek is masculine.

As Dr. T. R. Glover says, Pharisees had come in their bitterness and hate to catch Him in His words; great numbers of sufferers—the blind, the deaf, the halt, the leprosy—had come to Him to be healed; greedy people flocked out to Him because they ate of the loaves and were filled; pious people pressed upon Him to hear His words of spirit and life; sinful people forced their way into His presence and fell at His feet, praying that He might be forgiven. But no people ever came into His presence who were not welcome to Him as these little children.

"Suffer the little children to come unto Me," forbade them not," He said; "for of such is the Kingdom of God." Jesus took it ill, as an old commentator expresses it, that the Twelve should so entirely misunderstand and ignore His teaching, should act so entirely contrary to every principle He had laid down, and His rebuke was just.

"To such belongeth the Kingdom. I have heard the chapter of the Society for the Prevention of Cruelty to Children spoken of sometimes as 'the Children's Charter' but this is the Children's Charter, which is the great word of Christ that has given the child his royal place."

"In the breast of a bull is the promise of spring," says the old proverb. In a little blue egg there's a bird that will sing; In the seed is the hope of the sod; In the heart of a child is the Kingdom of God."

Good Habit to Cultivate

Canadians Would Do Well To Spend Vacations in Canada

According to official estimates \$38,000,000 is spent on foreign travel during 1932 by residents of this country, notwithstanding the depression and adverse discount of Canadian funds in certain countries. While there was a decrease of \$18,455,000 in previous year, such expenditures, comprising about 10 per cent of the total, will appear to be room for further reduction. The circulation in Canada of so large a sum as that spent by Canadians on foreign travel would be of inestimable benefit to those who cater to the travelling public, and to the numerous classes that would be indirectly affected by the resulting increased purchasing power. Vacanting in Canada therefore is a habit which every Canadian might very well cultivate, to his own and the country's advantage.—Department of Interior Bulletin.

Dangers Of War

Another Upheaval Would Lay Heavy Hand On North America

Reaction of the North American continent to the forebodings of another war in Europe was that we must make every effort to keep out of it. Professor Reginald Coupland, of Oxford University, told the Canadian Club at Ottawa, following an extensive tour through the United States and Canada.

In the closely knit world of today, North America could not shelter behind the Atlantic Ocean, he told his hearers. The credit and the civilization of the continent must be rocked by such a disaster in Europe. It would be much more encouraging he said, if the people of North America would eat by all kinds of poultry. This is prepared by allowing the milt to sour until it becomes thick. A gentle heat is then applied, which, says the Dominion Department of Agriculture, will cause the whey to separate from the curd. The whey is drained off and the curd is then pressed. The whey can be fed either as it stands or mixed in the mash.

"Cottage Cheese" For Poultry
Where an abundance of milt is available, it may be used in the form of cottage cheese, which is greedily eaten by all kinds of poultry. This is prepared by allowing the milt to sour until it becomes thick. A gentle heat is then applied, which, says the Dominion Department of Agriculture, will cause the whey to separate from the curd. The whey is drained off and the curd is then pressed. The whey can be fed either as it stands or mixed in the mash.

He: "I don't know whether to be a barber or an author."

She: "Toos for H! Heads or tails."

WORLD HAPPENINGS BRIEFLY TOLD

The Roosevelt economy campaign is heading for a reduction of from 14,000 to 18,000 in the strength of the United States army.

Approximately 15,000 acres will be sown to sugar beets in southern Alberta this year, an increase of 1,000 acres.

Amelia Earhart has received the award of the 1932 Harmon international trophy for women flyers for her flight across the Atlantic in May, 1932, the first crossing ever accomplished by a woman alone.

Decrease of more than 1,000,000 pounds was shown in butter holdings on April 1, as compared with the corresponding date last year, according to a report issued by the Dominion Bureau of Statistics.

Placer gold output in British Columbia increased from \$117,711 in 1929 to \$346,800 in 1932, a gain of nearly 200 per cent. Free miners certificates were issued to 10,000 men last year.

Long a source of revenue to dwellers on the outposts of civilization, bounties on timber wolves have been slashed 50 per cent. Henceforth the bounty will be \$15 per peli compared with the \$40 formerly paid.

To assist school districts, municipalities and other public bodies to improve the surroundings of schools, public buildings and community centres, the Alberta government will distribute close to 3,000,000 caragana seedlings.

A rate war among trans-Atlantic lines, it was reported in shipping circles, will be the probable results of differences between members of the shipping conference respecting rates for first class and cabin class accommodations.

Closing of Government House at Edmonton, official residence of the lieutenant-governor of Alberta, in preference to reduced educational grants by the Alberta government was urged in a resolution passed by the executive of the United Farmers of Alberta.

B.C. Eugenics Board

Will Assume Control Of Its Duties July 1st

British Columbia's board of eugenics, to be created under the Sterilization Act, will assume control of its duties when the statute comes into effect, July 1. It will be a voluntary board, composed of a member of the judiciary, a psychiatrist and a social worker, yet to be named, who will serve without remuneration.

The duties of the board will be to pass upon recommendations from superintendents of any provincial mental home or industrial schools, where it is suggested that hereditary mental deficiency or serious mental disease may be passed on to successive generations without interference.

If the consent of the patient or a guardian is obtained, the board may order application of the statute in such case, first holding individual investigation into the case. Where consent is withheld, the operation would not be proceeded with in any case. The cost would be borne by the institution concerned and choice of a surgeon would be accorded.

Making Sugar From Wood

Suitable For All Kinds Of Confectionery Is Claimed

After ten years of experimentation in his laboratory, the noted German chemist Bergius, to whom the Nobel Prize was awarded for his process for liquefying coal, has perfected a process for making sugar from wood. It is now being put into practical application under his supervision.

The finely ground and dried wood is placed in a great kettle with an admixture of 40 per cent. muriatic acid, and treated with a diffuser battery until a syrup is procured. This syrup of molasses is then boiled down, evaporating the acid, and a further step in the process converts it into wood sugar, which can be used, as can also the molasses, as a fodder for animals, for making yeast, for distilling alcohol, and for other purposes.

Still another step changes the wood sugar into chemically pure grape sugar, which can be used for all kinds of confectionery, taking the place of cane or beet sugar.

Copper Walls For Bungalows

Bungalows with copper walls are being constructed in Germany since it has been found that this metal offers advantages over steel houses, principally because it is rust-proof and requires no protective coat of paint.

W. N. U. 1931

The Debt Adjustment Act, 1933

Important Legislation Passed in Saskatchewan At Recent Session

The Debt Adjustment Act, 1933, passed at the recent session of the Saskatchewan Legislature, does not differ very materially from the Act of 1932, which it replaces. Its scope, however, is much wider. While the former Act applied only to certain restricted classes of residents, the new Act protects every person who is an actual resident of the province, and that protection extends to every person who, though not an actual resident, is the owner of farm land in the province on which a member of his family conducts farming operations. All companies, except banks, carrying on business in the province, are also protected.

Amicable Settlements Between Debtors and Creditors

The new Act repeats the provisions of the superseded Act with respect to amicable arrangements for settlement of debts. Such arrangements may be made, through the medium of the Debt Adjustment Board, between a resident and his creditors, and may provide for settlement of the resident's debts either in full or by a composition.

If an adjustment cannot be arrived at between the resident and his creditors, the board is empowered to determine from time to time the basis on which the resident ought to pay the claims of his creditors and on which the creditors ought to accept payment of their claims, and in case the resident fails to comply with any directions given by the board, the board may issue a permit authorizing the creditors to proceed against the resident.

Readjustments Between Debtor and Creditors Upon Petition

Failing an amicable agreement between a resident and his creditors, or failing compliance with any directions given by the board, the board is empowered, upon petition of the resident or of any of his creditors, to make readjustments of the debts of the resident and his creditors, having regard to the economic conditions prevailing at the date when the indebtedness was incurred, and those existing at the date of the petition and those existing during the intervening period. In particular the board may, by order, provide for postponement of payment of all or any debts of the resident, or for the issue of a permit, or the execution of process already issued; may proceed in civil proceedings; vary the rights and privileges of the resident; direct the resident to deal with all or any part of his property in such manner as the board deems expedient.

Proceedings Prohibited Unless Permit Issued

The main provisions of the Act are contained in section 11. That section commences by providing that no legal or other proceedings shall be instituted in certain specified classes, shall be taken, made or continued against a resident, unless a permit has been issued for the purpose by the Debt Adjustment Board or a member thereof, or by any person authorized by the Lieutenant-Governor in Council.

The prohibited classes of proceedings are as follows: (a) action or suit for legal, equitable or statutory claim, where it is suggested that hereditary mental deficiency or serious mental disease may be passed on to successive generations without interference.

(b) action, suit, or proceeding upon a covenant, contract, agreement for sale or mortgage of land or assignment of such agreement for sale or mortgage.

(c) action or proceeding for sale under or foreclosure of a mortgage on land, or for cancellation, rescission, or specific performance of an agreement for sale of land or for recovery of possession of land, whether in court or otherwise.

(d) proceeding to acquire title to land by virtue of a judgment or decree, or to enforce a preliminary application by a tax purchaser to a registrar of land titles pursuant to and by virtue of section 53 of The Arrears of Taxes Act;

(e) proceeding by way of execution; (f) action or proceeding to sell land under or in satisfaction of any judgment or mortgage lien;

(g) seizure in the nature of an execution or distress, or under any agreement for sale, chattel mortgage, hire purchase agreement or conditional sale agreement, whether by virtue of rights at common law or under statute; (h) seizure under any agreement for sale of land used and occupied as residential property;

(i) seizure under any agreement for sale of farm land or under any share of crop lease or crop payment agreement for sale or mortgage, in excess of the share to which any person making a seizure is entitled under sections 2 and 3 of The Limitation of Civil Rights Act, 1935, and whether by virtue of rights at common law or under statute;

such other class of legal or other proceedings as may be brought within the provisions of this section by the Lieutenant-Governor in Council.

And the prohibition applies to proceedings commenced either before or after the twenty-seventh day of March, 1933, the date on which the Act came into force.

But the twenty-seventh day of March, 1933, the date on which the Act came into force. The prohibition does not apply to any contract made or entered into by a debtor, the whole or the original consideration for which arose after the first day of April, 1933, nor to

PRINCESS PAIS HUSBAND RECEIVES IMPORTANT APPOINTMENT

Rear-Admiral Hon. Sir Alexander Ramsay, who married Princess Patricia, daughter of the Duke of Connaught, has been appointed in command of Britain's aircraft carriers succeeding Rear-Admiral Reginald Henderson. Sir Alexander in his varied naval career has had wide experience with these ships and it is expected he will hoist his flag in the "Courageous," one of the finest of aeroplane carriers. Above is a picture of Rear-Admiral Sir Alexander Ramsay and also of the "Courageous."

any action or suit which is founded on tort, save with respect to a contract which is merely a renewal or revision of a contract originally entered into prior to that date.

2. Again the prohibition does not apply to:

(a) an action or suit by a municipality for recovery of taxes, or any of the other remedies available to a municipality for the collection of taxes;

(b) seizure in the nature of a distress for rent, provided that the goods distrained shall not be sold or otherwise dealt with except with the written permission of the board; and (c) such further class or classes of legal or other proceedings as may be withdrawn from the operation of the Act by order of the Lieutenant-Governor in Council.

3. Proceedings by way of attachment or garnishment may be initiated by a creditor of a resident and service effected on the garnishee but no further steps in such proceedings shall be taken without the issue of a permit by the board.

4. The continuation of the following actions and proceedings is permitted:

(a) actions or proceedings for sale under or foreclosure of a mortgage of land, or for cancellation, rescission, or specific performance of agreements for sale of land, or for recovery of possession of land, whether in court or otherwise, commenced and set down for trial prior to the coming into force of the Act, save that no final order shall be made or judgment rendered and no sale shall be effected, unless the board issues a permit for the purpose; and (b) actions or proceedings other than those set forth in clause (a) which have been set down for trial or are under appeal prior to the coming into force of the Act, provided that no writ of execution shall issue pursuant to judgment in such actions unless the board issues a permit for the purpose.

Issue Of Certificates

The provisions of last year's Act authorizing the issue of certificates appear again in the new Act. Hitherto these certificates were issued only on the application of a resident but now they may be issued either on application of a resident or of any of his creditors. After a certificate has been issued no proceedings of the nature above mentioned can be taken, made or continued against the resident without the written authority of the board; the resident is prohibited from dealing with his property, and no purchase made by him under a conditional agreement has any validity unless the previous written authority of the board has been obtained.

Where a certificate has been issued, or a permit has been refused or cancelled, the board is authorized to:

(a) direct the resident named therein to deal with all or any part of his property in such manner as the board may in its discretion deem expedient; (b) in the case of residential property occupied as such by a resident, and having regard to all the circumstances, fix a sum to be paid as rent of the property and require the resident to pay it in the manner specified in the direction to the mortgagee or vendor of the property or to any person claiming through or under such mortgagee or vendor.

It is the duty of the resident to comply with such directions, and the board is empowered to enforce the proceeds of sale of any property of the resident received by it for distribution in such manner as it deems fit.

General Postponement

The Act also provides for the postponement of payment of any debts, liabilities or obligations, or of the enforcement of liens or incumbrances or securities. This may be done by proclamation of the Lieutenant-Governor published The Saskatchewan Gazette. The Lieutenant-Governor in Council is also authorized to prohibit the issue of process, or the execution of process already issued, or to stay proceedings in civil matters, or to extend or otherwise vary the execution

privileges which execution debtors now enjoy.

Agreements Waiving Act Have No Effect

Agreements providing that the Act shall not apply, or that the remedies provided by it shall not be available, are declared to be null and void and of no effect.

Crop Payments

A reference has been made to sections 2 and 3 of The Limitation of Civil Rights Act, 1933. These sections provide as follows:

2.—(1) Notwithstanding anything contained in The Crop Payments Act or in any agreement for sale or mortgage of land to which that Act applies, or in any other agreement for sale or mortgage of farm land, or in any share of crop lease collateral to a mortgage or agreement for sale of land, but subject to the provisions of section 3, the rights of a vendor or mortgagee, or his assignees, shall not in respect of the crop grown by the purchaser or mortgagor in the years 1932 and 1933, affect more than one-third of the crop produced in either of these years; and the purchaser, mortgagor or leasee may in the year 1933, out of the share of the crop belonging to the vendor, mortgagee or leasee, pay one year's taxes upon the land on which the crop is grown, and, in such case, upon production of the receipt of the municipality for such payment, the vendor, mortgagee or leasee shall be entitled only to the one-third share of the crop, or the share authorized under section 3, less the share shown upon such receipt.

(2) The benefit of the provisions contained in subsection (1) of this section shall be applicable to and include the assignors of agreements for sale and mortgages, and the assignees of purchasers and mortgagors respectively.

(3) This section shall not apply to the case of the sale of land with chattels to a resident upon an entire consideration.

(4) For the purpose of subsection (3) the word "resident" shall not have the same meaning as in The Debt Adjustment Act, 1933, but shall be interpreted in accordance with its ordinary significance.

3. In any case to which the provisions of subsections (1) and (2) of section 2 apply, where a vendor or mortgagee has agreed to or supplied the seed or pays a share of the cost of threshing and binder twine, such agreement or arrangement shall entitle the vendor or mortgagee to the share of the crop not exceeding one-half thereof agreed to be delivered to him, provided that the purchaser or mortgagor may make application to the Debt Adjustment Board for relief from such agreement, and thereupon the board may determine what share of the crop, not exceeding one-half thereof, shall be delivered to the vendor or mortgagee, and upon delivery of such share, the interest in the crop of the vendor or mortgagee shall cease and determine.

Duration Of Act

The Debt Adjustment Act remains in force only until the first day of March, 1936. There is no restriction in the case of The Limitation of Civil Rights Act.

Radio Sales Last Year

Total Purchased in All Provinces Valued At \$4,758,959

Saskatchewan radio buyers accounted for 5.4 per cent. of the radio sales in Canada in 1932.

The total sold during the year was \$33,454 valued at \$4,758,959.

Percentage of other provinces were: Ontario, 29.3; Quebec, 22.9; British Columbia, 9.6; Manitoba, 6.9; Alberta, 6.8; Nova Scotia, 4.1; New Brunswick, 2.1; and Prince Edward Island, .4.

The sales in 1931 were 286,122 sets, valued at \$15,141,847.

Milne's Meat Market

Jas. Milne, Prop. Phone 46 Blaimore, Alberta

Local and General Items

Miss Cecile Olivier, of Creston, has been holidaying here.

The Blaimore schools reopened on Monday, following the Easter vacation.

Murphy and Stokluk have been campaigning in the Drumheller district.

A new son arrived to Mr. and Mrs. J. Slopak on Saturday last—and congratulations!

Miss Joselyn Peake, of the Royal Bank staff, was an Easter visitor with friends at Claresholm.

Blaimore or Chicago had no connection whatever with a murder committed near Berne, Switzerland, last week.

Remember the Blaimore Football Club dance and whist drive, to be held in the Lodge hall on Wednesday night next.

The many friends of Mr. Moses Johnson, mines inspector, will regret to learn that he has been quite ill for several weeks.

Monday next, May the first, has been proclaimed by the provincial government as Arbor Day, supposed to be celebrated as an official holiday.

Miss Chardon, Mr. W. H. Moser and Mr. Harris are this week ending Cranbrook with a number of their piano and violin pupils, who are competing at the musical festival.

We were slightly in error in our last issue in stating that the educational poll tax, or minimum tax, had been raised from \$4.00 to \$5.00. We understand that the \$4.00 rate still applies.

The question is asked: What right had Auditor Kidney, of Edmonton, to inform Mayor Knight that it would be necessary for the town of Blaimore to raise five or six thousand dollars more this year than last?

An amusing error occurred in an issue of a Cranbrook daily paper last week. A list of appeals to the city council for relief and assistance contained "Liberal Association," instead of "Library Association."

In return for the columns of this paper being used almost continually in the interest of Blaimore and home patronage, many of our merchants showed their appreciation of our good turns last week by ordering printing from Toronto.

This week received a letter from S. J. (Sid) Sargent, now residing in England. Sid states that his mother, aged ninety-two, is residing with them, and is still quite hale. Mr. and Mrs. Sargent are looking forward to a holiday visit to Canada soon.

A shale sidewalk is being built along the side of the properties of J. E. Gillis and town office and fire hall on Eighth Avenue. It has been suggested that the good work should continue to connect with the cement walk on State Street. It would be money well spent.

Harvey Murphy and John S. Newall were arrested by police at Red Deer yesterday, while enroute to Edmonton—getting away, as all such leaders do, when the real trouble started. Murphy and Newall are purported to have been organizers of the unemployed trouble in Calgary.

J. O. C. McDonald has been laid off duty at McGillivray mine for two weeks with a badly sprained ankle. During his enforced vacation he has perfected his knowledge of the ancient game of checkers, and it would occasion no surprise if he issued a challenge to all comers, catch-as-catch-can. Sandy Dewar has been polishing up on his knowledge of the game, and is reported to be no mean player. Next thing someone will organize a checker club and there will be a grand revival of veteran players.—Coleman Journal.

Constipation 6 Years, Trouble Now Gone

John J. Davis had chronic constipation for six years. By using Adierka he soon got rid of it, and feels like a new person. Adierka is quick acting—safe. Blaimore Pharmacy.

CLEAN-UP WARNING

Monday, May the 15th, has been set as the limit of time allowed residents of Blaimore to have their premises and lanes cleared of all rubbish, inflammable material, etc., in conformity with the requirements of the Health Act.

Get busy now and have all refuse removed to the nuisance ground, for immediately after the above date prosecutions will be in order.

By order of
BLAIRMORE TOWN COUNCIL
227-m-4-11

WANTED—A large kitchen range, good baker, will pay cash. Apply P. Zalko, Box 2060, Blaimore.

Mrs. J. H. Corbett and daughter left the latter part of last week for the Pacific coast.

Mrs. Frank Chardon, of Fernie, was a week end visitor here with Mr. and Mrs. Paul Chardon.

FOR SALE—1600-chick Brooder, new this season, \$15 or trade for wheat—Dunkley, Blaimore.

The Crows' Nest Lake dance pavilion will reopen on Saturday, May the 6th. The Arcadians will be in attendance.

All interested in baseball and football are asked to gather at the local athletic grounds on Sunday afternoon, where practices are to be held.

Mr. and Mrs. Milt Congdon moved into the Corbett residence last week end. Since purchasing the property, Mr. Congdon has had some renovations effected.

Signs "No Loitering," placed along main street, had the effect of stopping loitering for a couple of days only. Already some of the signs have been somewhat defaced.

A big drawing card now is the new cabaret recently opened by Mr. P. Colombo. Visitors are satisfied its equal is not to be found, even in Calgary, for general lay-out and beauty of appearance.

DON'T FORGET THE DATE, May 5th, at the Columbus hall, commencing at 7.30, a Grand Variety concert, put on entirely by children. Come, see and hear; laugh and grow fat; encourage the children; patronize home talent. Everybody welcome.

Mr. and Mrs. Alphonse Fahro and Donnie, and Miss F. Fahro, were down from Kimberley to spend Easter with relatives here. Mr. Fahro has returned to Kimberley, while the balance of the party are spending a while here.

DR. A. E. SHORE, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. Stewart, Blaimore, on Friday, April 28th, after 2.30 p.m. Any one wishing to consult him with regard to Eye, Ear, Nose or Throat conditions, or to be fitted with glasses, please make appointments with Dr. Stewart.

We draw attention of our readers to reference elsewhere in this issue to an address delivered by A. L. Smith, K.C., at Calgary. Anyone in this country, who does not coincide with Mr. Smith in what he says regarding the British flag and Canadian principles should leave this country, and leave it right now.

Mrs. W. Bond, wife of the collector of customs, at present stationed at Blaimore, entertained and looked after Masters Crowder, Gillis, Packer and MacDonald from Blaimore, when they arrived in Lethbridge last Thursday, the 20th, until they returned to Blaimore on Sunday, the 23rd. A good time was had and the boys are full of the splendid time they had and the treatment they received while staying with Mrs. Bond, during their attendance at the course given by Boy Scouts.
